## Who We Are

Piedmont Newton Hospital is a 103-bed, acute-care, community hospital in Covington, Georgia offering 24-hour emergency services, women's services, a Level II Neonatal Intensive Care Unit (NICU), an intensivist-staffed Intensive Care Unit (ICU), and general medical/surgical services. In May 2019, Piedmont Newton completed a \$10 million expansion and renovation of the Emergency Department. The project doubled the department's capacity from 16 beds to 32 beds, created an additional nurses' station, and a room for higher acuity trauma cases.

Serving Newton County and surrounding communities for over 60 years, Piedmont Newton Hospital offers high-quality, patient-centered care. As a not-for-profit organization, hospital earnings go directly back into maintaining and improving services and facilities and to educational outreach.
