As a nonprofit healthcare system, our hospitals belong to the communities we serve, and the evidence of this commitment is found within our community benefit programs. For 110 years, Piedmont has been fulfilling its mission to serve the healthcare needs of all our communities. As we enter this new year, we are committed to further strengthen and expand our current programs. In addition to providing care and services to the needy at a reduced fee or no charge, our hospitals provide education, support, and assistance to the public to make the community a better place to live.

To that end, we continually assess and address the needs of those we serve, and especially those who are the most vulnerable to poor health condition, race or ethnicity. We remain fully dedicated to serving all members of our communities.

As we end FY15, we wanted to share with you a snapshot of our efforts and their impact on our communities. Please join us as we celebrate our successes to date, and partner with us as we continue to improve upon this work to serve those around us. Thank you.

The 11 hospitals of Piedmont Healthcare belong to the communities we serve. Our promise is to make a positive difference in every life we touch and this mission is evidenced within our community benefit programs. Piedmont doesn’t want to just make people healthier, we want to keep people healthy.

As a designated nonprofit hospital system, Piedmont Healthcare is required by the Internal Revenue Service (IRS) to give back to the community in the form of community benefits. Community benefits are programs or activities that provide treatment and/or promote health and healing as a response to identified community needs. They increase access to health care and improve community health, with a focus on vulnerable populations.
