INCENTIVE PLANS

Piedmont's Incentive Plans financially reward employees for working together to achieve better Quality, Safety, Service; Talent; and Stewardship (financial) results. All full-time, part-time and PRN employees are eligible to participate in the Piedmont Incentive Plans. Employees at Piedmont Career Pathways levels 8 and above participate in the Management Incentive Plan (MIP); those with at least three (3) months of active employment...
during the fiscal year and who are employed by Piedmont on the actual award payout date are eligible to receive an MIP award.

RETIREMENT PLANS

401(K) TomorrowPlan
Piedmont’s market leading retirement plan is funded through pre-tax and after-tax employee contributions through bi-weekly payroll deductions to the 401(k) TomorrowPlan (contributions are 100% vested) and Piedmont matching contributions. Employees have the option to contribute to their retirement account on a pre-tax, Roth, or after-tax basis. Piedmont matches employee pre-tax and Roth contributions up to 6% (after-tax contributions are not match-eligible). Piedmont also offers a match “true-up” that ensures employees receive the full Piedmont match they’re eligible for, based on earnings and contributions made after meeting match-eligibility. New hires are automatically enrolled at a 3% pre-tax contribution rate – and can increase or decrease that amount, or opt out of the plan at any time. Employees are eligible to receive Piedmont matching contributions after one year of employment and 1,000 hours worked. For 2020, you can make up to $19,500 in combined pre-tax after-tax contributions to your 401(k) TomorrowPlan. If you are age 50 or over at any point in 2020, you can make up to $6,500 in additional catch-up contributions (to total $26,000).

In addition to the contributions listed above, there are two savings features that target those who have met the annual IRS contribution limit ($19,500 or $26,000 if over age 50 for 2020). Employees can contribute an additional $20,400 as a voluntary after-tax contribution and then elect in-plan Roth conversions. These features combined will allow you to increase Roth savings, and thereby, avoid taxes on future earnings.
