The screenshot shows a web form for a CV Risk Calculator. It includes input fields for Age (years), Total cholesterol (mg/dL), HDL cholesterol (mg/dL), Systolic blood pressure (mmHg), and Diastolic blood pressure (mmHg). There are also radio button options for Gender (Male, Female), Race (African American, Other), Treated for high blood pressure (No, Yes), Diabetes (No, Yes), and Smoker (No, Yes). A blue 'Calculate' button is at the bottom.

The CV Risk Calculator calculates an individual's 10-year risk of heart disease or stroke using the Atherosclerotic Cardiovascular Disease (ASCVD) algorithm that was published in the 2013 ACC/AHA Guideline on the Assessment of Cardiovascular Risk.
