

Student/Faculty Health Screen Requirements

Each of the following health screen requirements must be met prior to participant beginning his/her educational experience at Piedmont.

Proof of documentation must be kept on file at the school and available upon request.

1. **M.M.R.** (Measles, Mumps, Rubella) Must have *one* of the following:
 - a. Documentation of two doses of MMR vaccine on or after first birthday and separated by at least 28 days
 - b. Laboratory evidence of immunity as evidenced by positive measles titer (measles IgG), positive mumps titer (mumps IgG), and positive rubella titer (Rubella IgG)
2. **TUBERCULOSIS:**
 - a. **Evidence of TB testing:** will accept any of the following documentation:
 - i. Negative two-step TB skin test (Step 1 within the last 12 months and Step 2 within the last 90 days from the rotation start date) for all initial student rotations within Piedmont Healthcare.
 - ii. Negative T.Spot or Quantiferon Gold blood test within the last 12 months from the rotation start date.
 - iii. For history of positive TB test, latent TB infection or TB disease, must have negative chest x-ray within the last 12 months. If student has had TB disease, medical evaluation that student has been treated for TB disease is required.
 - iv. After initial TB testing is completed, student should receive follow-up TB testing annually consisting of a one-step TB skin test or a T.SPOT or a Quantiferon Gold Test.
 - b. Must be free of the following symptoms: productive cough lasting more than three weeks, unexplained fatigue, night sweats, unexplained weight loss, unexplained fever, chills or coughing/ spitting up blood.
3. **VARICELLA** (Chicken Pox) Must have one of the following:
 - a. Written documentation of vaccination with two doses of varicella vaccine
 - b. Laboratory evidence of immunity as evidenced by positive Varicella titer (varicella IgG)
4. **HEPATITIS B VACCINE:** This vaccine is required for all direct patient care providers or those with risk of exposure to blood-borne pathogens. The following must be on file with the school:
 - a. Documentation of ≥ 3 doses of the Hepatitis B vaccine series with documentation of a positive titer drawn after the last dose of vaccine.
 - b. Documented non-responders to the vaccine will be allowed to proceed with clinical rotations.
5. **TETANUS/DIPHTHERIA/PERTUSSIS:** Documentation of one dose of Tdap within the past ten years
6. **FIT-TESTING:** All students who will be entering rooms of patients on airborne precautions should present to the nearest Occupational Health office for fit-testing with an N-95 Respirator mask.

Students/Faculty should notify Manager and Occupational Health if they have been exposed to any known or possible infectious/ contagious condition.
